

Diverse Career Opportunities

ESSAI offers its graduates excellent career prospects and rapid integration into the job market. The school's high-quality education is recognized and sought after by professionals and companies in Tunisia and abroad. The majority of graduates secure their first job as engineers either in companies or start-ups located in Tunisia's technology hubs. Many also succeed in entering job markets abroad, especially in France and North America. According to available data, 90% of ESSAI graduates secure their first job within a year of graduation.

Graduates have numerous career paths in diverse fields such as consulting, media, telecommunications, banking and insurance, energy, transportation, finance, healthcare, and marketing.

The examination regulations at ESSAI include several strict guidelines: Students must adhere to assigned seating and exam rooms, with changes resulting in penalties. Valid identification (CIN, passport, student card, or driver's license) is required at all exams. Possession of a mobile phone, even if turned off, is considered an attempt to cheat, and students are responsible for ensuring they are without a phone. Only exam sheets provided by the invigilator and essential items are permitted, and desks must be free of any markings prior to the exam. Students may arrive up to 30 minutes late but will not receive extra time and cannot leave within the first 45 minutes. Invigilators' instructions must be followed, including any changes in seating arrangements. All students must submit their exam sheets and sign the attendance sheet, even when submitting a blank copy. Cheating, which includes possessing unauthorized materials or communicating with others, leads to immediate removal from the exam room and referral to the disciplinary council, with penalties ranging from a warning to permanent expulsio
